Squirrel Cage Balancing Clips

Standard

- A** Width
- B** Depth
- C** Throat
(inside dimension)

The Standard Squirrel Cage Clips have a slight curve and are designed for balancing fans with a curved blade. A single barb on the seven smallest sizes help secure on the leading edge.

These clips are made from annealed carbon spring steel, with a white zinc plating. They come in a range of weights from 0.2 grams up to 13.0 grams.

You may purchase these in a package of 25 (2BC), package of 100 (1BC) or in bulk. Volume Pricing is available on quantities of 1000 clips or more.

We also offer a full set of squirrel cage clips (FS-BC-100).

Squirrel Cage Balancing Clips

Standard

- A** Width
- B** Depth
- C** Throat
(inside dimension)

The Standard Squirrel Cage Clips have a slight curve and are designed for balancing fans with a curved blade. Double barbs help secure clip on the leading edge of the five larger weights.

These clips are made from annealed carbon spring steel, with a white zinc plating. They come in a range of weights from 0.2 grams up to 13.0 grams.

You may purchase these in a package of 25 (2BC), package of 100 (1BC) or in bulk. Volume Pricing is available on quantities of 1000 clips or more.

We also offer a full set of squirrel cage clips (FS-BC-100).

Squirrel Cage Balancing Clips

Extra-Tight Curve

A Width

B Depth

C Throat
(inside dimension)

The Extra-Tight Curve clips are made from annealed carbon spring steel and have been designed with a tighter radius to fit securely on a smaller fan blade without barbs. These are available in three different weights and two finishes for more flexibility and design for your finished product.

The clip is available in black phosphate coating or white zinc plating to blend better with your finished product. With a tighter curve, this clip puts a variety of weight just where you need it, even in a tight space.
